

REATLEGILE

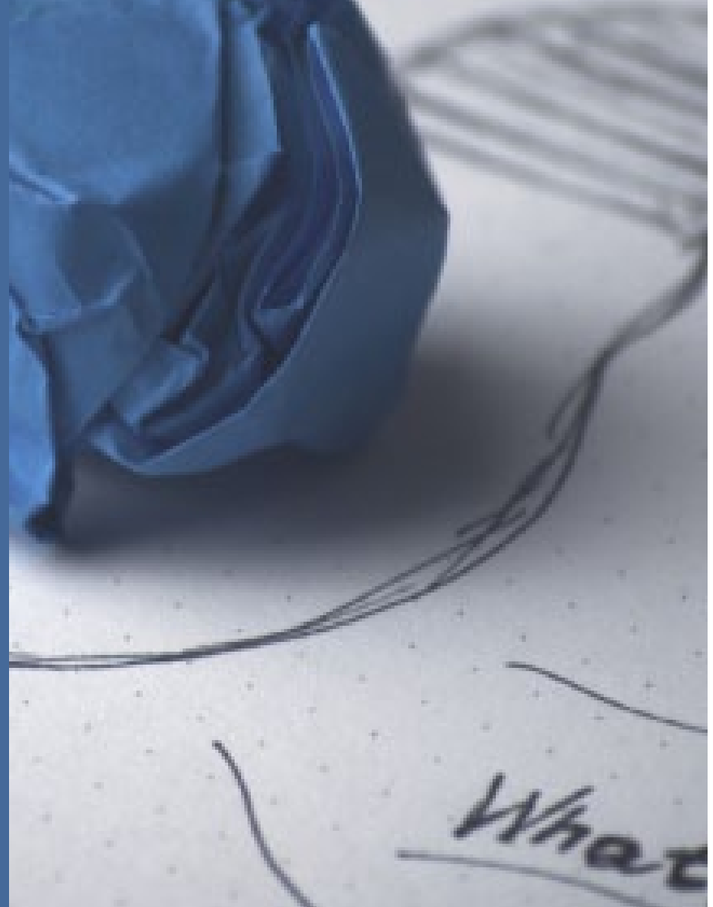

ELECTRONIC SOLUTIONS

COMPANY PROFILE

Reatlegile Electronic Solutions is South African based company operating nationally and internationally offering risk management solutions.

Reatlegile Electronic Solutions has risen to meet the challenge of developing the skills base that serves as a foundation for the realization of information and knowledge based society. The company represents aspirations, dreams and aims of professional Installers and youth in the Electronic Security systems sector in South Africa. We believe that the key to accelerating growth and development in the Security sector lies in the convergence of multiplicity of skills.

Reatlegile Electronic Solutions has a collaboration agreement with Norbain, Impro, Ideco, Mustek and Comztek The companies that specializes in Security Systems and IT with branches nationally.

MISSION AND VISION

Our mission is to empower individuals and capacitate organizations by exploiting the synergies of various skills within the Electronic Security systems sector by convergence.

In terms of its social responsibility, Reatlegile Electronic Solutions will: - Establish a training scheme for young black women in Electronic Solutions. Place emphasis on disabled.

Actively participate in empowering projects run by trained youth. Sponsor youth in Security programs.

VALUES

The company is guided by the following values:
Empowerment
Honesty
Professionalism
Integrity
Respect for all

SKILLS TRANSFER

"To empower employees and utilize the highest levels of expertise, professionalism and service, based on a colour and gender preference, without compromising the satisfaction and success of the customer."

As a follow-up to the Reconstruction and Development Programme, the South African Government has identified employment creation and skills transfer as focal pillars of social and economic transformation. In line with this vision, Reatlegile Electronic Solutions has aligned itself with several skills transfer initiatives, and has, to date, outlined a comprehensive programme of training and people skills development within the company and externally.

Reatlegile Electronic Solutions fully supports the Employment Equity Bill, and understands the critical need to economically empower historically disadvantaged individuals, both through employment, and education, in order to build a sustainable and broad based economy. The company has mapped out a long-term strategy of steady organic growth and service expansion and will endeavour to empower, educate and uplift previously disadvantaged individuals.

EXCELLENCE THROUGH ABILITY

The key to Access growth is to play a strategic role in the delivery of complete electronic security solutions to its target market. Reatlegile Electronic Solutions is committed to providing a stimulating and empowering environment for employees.

Reatlegile Electronic Solutions provides value and delivers excellence to its customers through:

- A single point of contact
- Managing complex transitions to Electronic security technologies
- Management of different vendors and service providers
- Reduced and controlled operating costs
- Standardization of platforms
- Improved company focus
- Consistent service level management
- Availability of skilled resources
- Proactive approach
- Improved end-user service

Reatlegile Electronic Solutions is committed to becoming the Electronic security solution provider of choice by delivering a high level of service and expertise. By utilizing Electronic Security systems to realize tangible business benefits for its customers, and aims to ensure sustainable business opportunities, skills transfer, as well as training and development opportunities for all employees.

SERVICE OFFERINGS

Products and Services Supplies:

Biometric Access Control
Proximity Access Control
Digital Surveillance Systems
IP Surveillance Systems
Electronic Fire Detection Systems

Hardware

ImproNet Proximity Readers
Sagem Biometric Readers
AXIS NVR's and IP Cameras
Hikvision NVR's and IP Cameras
Rediview PC Based Digital Video Recorders
Diginet PC Based Digital Video Recorders
Ziton Fire Detection Panel Systems

Information Communication Systems
Biometric Login Solution
Walk Through Metal Detectors
X – Ray Inspection Systems
Network Infrastructure

Maintenance

Carry-in On-Site
Telephonic Support
Online Support
Maintenance Agreement

PRODUCTS AND SERVICES OVERVIEW

CCTV SURVEILLANCE SYSTEMS

IP PTZ AND MINI DOMES CAMERAS

NETWORK VIDEO RECORDER

PROXIMITY IMPRONET ACCESS CONTROL AND INTEGRATABLE WITH BIOMETRICS AND FIRE DETECTION SYSTEMS

Sagem Biometric Access Control and PC Login

MSO 300 Takeon Reader

MA 500 Out/Indoor Reader

MA J In/Outdoor Reader

SOFTWARE

IXP 20 Software (Max 4 Door Controller)
IXP 220 Software (Max 64 Door Controller)
IXP 400 ImproNet Software (Multi Door Controller)
Axis IP Software
Sagem Intergrator Management Software
MorphoAccess Enrollment Management Software (Sagem Admin Software)
Rediview DVR Capture Card software
RediView Remote Software (RMS)
Microsoft operating systems 2000, XP and Vista
Antivirus Software
Various types of Specialised Software Packages

CONTROL ROOMS

Fire Protection\detection
False Flooring\Room Construction
Air-conditioning
Access Control & Security
Power Conditioning\Surge Protection
24/7 Critical monitoring systems

NETWORK SOLUTIONS

NICs
UTP to Fibre Converters
Edge Switches
Routers
Remote Access Service
Switches
Ethernet Radio Links

CABLING

NETWORK TOPOLOGIES

Gigabyte Ethernet
10/100 Shared and Switch Ethernet
Star Networking (Cat5e and Cat6e Standard)
Arch Net
Daisy Chain (Mylar Screened Cable)

ACCREDITED SUPPLIERS

1. Name of Supplier : Impro Technologies

Access Control
Norbain / Reditron
CCTV, Access Control
REGAL
Accessories
AllTech
Turnstiles, Boom Gates and Booths
CENTURION
Gate Motors and Electric Fence
Mustek and Comztek
ICT, Networking, Computing
